Project Description

According to ADB website, the project intends to improve the management, sustainability, and resilience of marine protected areas in the Coral Triangle region, home to the highest coral diversity in the world. It will strengthen the capacity of coastal communities and institutions to manage coral reef resources and associated ecosystems. It will also support sustainable marine-based livelihoods.

The project will enable coastal communities, and the institutions that support them, to manage coral reef resources, and associated ecosystems and biodiversity in a sustainable manner for increasing the economic and social welfare of coastal communities. COREMAP-CTI will support the government's sector development plan and national targets for establishing effective Marine Protected Areas.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
