## **Project Description**

The objective of the program is to promote the use of biodigesters in Burkina Faso and provide long term financing to the National Biogas Program (PNB-BF) in order to allow the emerging Biodigester sector to consolidate and become self-sufficient.

Key Results In order to reach the Project Development objective, the project will focus on the following two outcomes:

Outcome 1: the project will allow PNB-BF to operate for the phase III as its operational costs are covered by carbon finance.

Outcome 2: Biodigester market is developing with the support of private investors and institutional partners.
