Project Description

The objective of this Technical Cooperation (TC) is to strengthen the capacity of Jamaica Business Development Corporation (JBDC) to design, implement, and evaluate existing and innovative Entrepreneurship Support Services (ESS). For this purpose, diagnoses of existing services and action plans for the implementation of reforms and innovations will be developed. In this context, reformed and innovative services will be tested through the design, implementation, and evaluation of pilot projects. The operational experience generated through these pilots will be used for the replication and scaling-up of the highest quality and most cost-effective approaches to ESS.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
