## Project Description

As stated by the ADB, the proposed TA aims to position DISCOs as key enablers in Pakistan's energy transition by leveraging cutting-edge technologies to modernize their operations, enhance service reliability, and integrate renewable energy systems. The TA will develop a concept for implementing modern DMS, emphasizing integration with SCADA, AMI, and online APMS. This integration will enhance automation, outage response, load forecasting, and the management of distributed renewable energy resources.

The project executing agencies are:

- Lahore Electric Supply Company
- Multan Electric Power Company
- Sukkur Electric Power Company
