Project Description

DESCRIPTION

The Skills for Employment Investment Program (SEIP) supports the government's ambitious skills development initiatives, which aim to enhance the productivity and employability of the growing workforce to reduce poverty and accelerate economic growth. The proposed Project 2 (2017 -2021) aims to harness the evolving skills development system by strengthening training partnerships established under Project 1, while expanding the scope of skills training. Horizontally, Project 2 will expand its sectoral coverage of training from six to nine priority industries, bring in additional public and private training partners, and pilot upskilling training for Bangladesh migrant workers overseas. Vertically, Project 2 will upscale mid-level skills training (e.g., quality control personnel and supervisors) and introduce a new industry-specific managerial training program in response to the emerging "middle-management gap." Project 2 will also emphasize women's access to various skilling opportunities to promote their formal-sector employment and gender equality.

PROJECT RATIONALE AND LINKAGE TO COUNTRY/REGIONAL STRATEGY

Project 1 (2014-2017) is being implemented by forging large-scale partnerships with public, private, and nongovernmental training providers to deliver mostly entry-level skills training to new entrants and existing workers in six priority sectors . The proposed Project 2 (2017- 2021) aims to harness the evolving skills development efforts by continuing ongoing training, while expanding the scope of skills training both horizontally and vertically.

IMPACT

Income and productivity of the working population aged 15 and over increased.

CONSULTING SERVICES

All consultants will be selected using ADB's Guidelines on the Use of Consultants (2013, as amended from time to time). Since the investment program is being financed by ADB's Special Funds resources and ADB will also be administering cofinancing to be provided by the Government of Switzerland, ADB's member country eligibility restrictions will not apply to this investment program. Industry associations and PKSf will be contracted by the executing agency using single-source selection to deliver skills training in agreed sectors and skills areas.

PROCUREMENT

The government has requested advance contracting to procure new training packages and related consulting services, and retroactive financing in an amount not exceeding 20% of the loan amount and the grant amount, respectively, for eligible expenditures incurred during the period of 12 months before the signing of the loan agreement and the grant agreement. The government has been advised that approval of advance contracting and retroactive financing does not commit ADB to finance the proposed Project 2.
