Support for the preparation of the Central District Water Supply Improvement Project

Project Description

According to the IADB, the objective of the TC is to develop preparatory studies to support the project for the improvement of the water supply of the Central District, to enhance the access, the continuity and the quality of the drinking water supply service and sustainability. These studies will be used for the eventual parallel financing operation with JICA under Cooperation for Economic Recovery and Social Inclusion (CORE) Program, the cofinancing framework between IDB and JICA, in order to substantially improve service standards, strengthen and consolidate the management capacities of UMAPS, under a focus on resilience, social considerations and quality of infrastructure.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
