## Project Description

According to the EIB, the project consists of support for the Electro Ljubljana's investment programme in its regional electricity distribution network over the period 2024-2026. This includes network reinforcements and refurbishments in high, medium and low voltage, targeting at maintaining the quality of supply, integration of renewable energy generation, catering for peak demand growth, as well as climate-proofing part of the network.

The programme will enable the promoter to maintain high quality of services and low losses across its electricity distribution network, connect new end-users and renewable energy generators as well as climate-proofing part of the network.

The programme supports the 2030 targets set in the country's National and Energy Climate Plan (with regards to the integration of RES), as well as EU policies on energy and climate, by enhancing critical infrastructure for decarbonisation.

## Investment Description

- European Investment Bank (EIB)

---

### Private Actors Description

As stated on the company's website, Elektro Ljubljana performs several (i.e. statutory) network activities and provides a wide range of commercial services related to the electricity infrastructure in central and south-east Slovenia. Our qualified workers take care of the biggest distribution network in Slovenia while Elektro Ljubljana owns the infrastructure that provides electric power to a large part of the country.

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## **ACCOUNTABILITY MECHANISM OF EIB**

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check:

[http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
