Project Description

According to the IADB, the objective of this Technical Cooperation (TC) is to strengthen the systematic integration of biodiversity and natural capital into development frameworks across Latin America and the Caribbean through evidence-based knowledge generation, standardized nature finance metrics, and enhanced institutional capacity for biodiversity mainstreaming. By providing decision-makers with robust analytical tools, practical guidance, and proven methodologies, this TC expect to help to transform how the region values and manages its natural capital in alignment with the IDB Group Natural Capital and Biodiversity Mainstreaming Action Plan (2024-2025).

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
