Project Description

According to bank documents, the proposed project objective is to increase economic activity and enhance access to economic opportunities in the Project area.

The Project will help create jobs in the Project Area by supporting interventions that will maximize the impact and spillovers of the NWM complex and foster social economic activities in the Project Area. It will also help align, coordinate and synchronize the needed soft and hard investments to maximize the impact of the NWM complex on the economic activity in different provinces in the Project area. The Project will focus on three areas of intervention:

1. Component 1: Supporting the development of competitive industrial activities leveraging Nador West Med in the Project Area;
2. Component 2: Supporting the development of social economic activities leveraging existing potential in the Project Area;
3. Component 3: Improving physical connectivity between NWM and economic poles, to support component 1 and component 2.
