Project Description

According to the bank document, the impact of the TA will be improved quality of government capital expenditure through a faster and more efficient public procurement system. The outcome will be a strengthened public procurement regulatory and institutional framework, which will be delivered through the subproject outputs:

- (i) better implementing regulations in public procurement;
- (ii) government's and ADB's procurement systems more closely aligned; and
- (iii) an improved ability to deliver public procurement capacity building across procuring agencies.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its the policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
