Investment Amount (USD)	\$ 4.50 million
Project Cost (USD)	\$ 25.00 million

Project Description

SXF seeks to invest in technology-enabled ventures that solve major regional problems, that seek to grow in Latin America and connect with the world. Although the fund is multisectoral, strategic verticals have been defined, aligned to segments where the greatest gaps are identified and in which the Salkantay team has greater experience and capacity to generate value and impact; These are: the development of Smart Cities (ie: logistics, e-commerce), the creation and promotion of access to better products and services (ie: fintech, edtech, healthtech) and the development of platforms, products and services that allow achieving greater competitiveness for micro, small and medium-sized companies. Investment in these sectors has become even more relevant in the current situation, as these are the companies that are leading the processes of adaptation to the new reality (for example, the future of work, education and health) and economic recovery .

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
