## Project Description

The goal of this Technical Cooperation (TC) is to prevent the spreading of COVID-19 in Guanajuato's rural communities by expanding and improving access to safe water, sanitation and hygiene (WASH) and promoting key behaviors such as handwashing and water disinfection, thus tackling the health crisis and limiting its social and economic costs. These interventions will also create employment opportunities to contribute to the economic recovery of the state and, in alignment with IDB's 2025 Vision, promote social progress in rural areas.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
