Project Description

According to World Bank documents, the objective of the proposed investment is to enhance access to, and quality of, secondary education in Maldives.

The proposed Project will support the Government of Maldives (GoM) to improve learning outcomes in science, mathematics and English in the general education system, with a special focus on the secondary education grades 7- 10. The Project will also support the GoM to enable students to access vocational education opportunities in secondary education. The Project will also strengthen teacher performance through focused continuing teacher development initiatives and school-based teacher development programs. In addition, the Project will support the development and implementation of national assessments of learning outcomes for students at secondary grades with international modules. Further, the Project will assist the implementation of internal and external quality assurance and quality enhancement activities in schools. Finally, the Project will support coordination and monitoring, and technical assistance and communication.
