Regional Off-Grid Electrification Project

Quick Facts

Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	U
Voting Date	2019-03-28
Borrower	ECOWAS Center for Renewable Energy and Energy Efficiency (ECREEE), West African Development Bank (BO)
Sectors	Energy
Investment Amount (USD)	\$ 150.00 million
Project Cost (USD)	\$ 333.70 million

Project Description

Regional Off-Grid Electrification Project (ROGEP) is designed as a robust and integrated regional program based on series of projects (SOP) placing Renewable Energy and Energy Access at the heart of the development of a sustainable ecosystem with a strong transformational potential. The ROGEP SOP includes interventions that need to be implemented at regional and country levels. The ROGEP SOP1 focuses on key regional interventions to develop a regional platform—on which the subsequent projects would be implemented. The ROGEP SOP1 will focus on supporting and developing viable business ecosystems in the project countries through a regional-level initiative. The main ROGEP SOP1 components are (a) Developing a regional stand-alone solar system market and (b) Providing access to finance for stand-alone solar system businesses.

Investment Description

- World Bank (WB)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
