PT Bajradaya Sentranusa

Quick Facts

Countries	Indonesia
Specific Location	Medan, North Sumatra
Financial Institutions	International Finance Corporation (IFC)
Status	Proposed
Bank Risk Rating	B
Borrower	BAJRADAYA SENTRANUSA, PT
Sectors	Hydropower
Investment Type(s)	Loan
Investment Amount (USD)	\$ 80.00 million
Project Cost (USD)	\$ 320.00 million

Project Description

According to IFC, the project will support BDSN's operational 180 MW Asahan-1 hydropower plant (HPP) in North Sumatra, Indonesia. The plant has been fully operational since January 2011 and sells electricity to PLN pursuant to a long-term PPA expiring on Dec 31, 2040 on a take-or-pay basis of 1,175 GWh of electricity per year. Asahan-1 is developed by the Independent Power Producer (IPP) BDN.

The HPP located 25 km downstream of Lake Toba on the Asahan River in North Sumatra, Indonesia, is approximately 130 km southeast of the city of Medan. Construction restarted in 2006/7 and the HPP was finally commissioned in 2010. The operation and maintenance (O&M) since January 2014 has been contracted to PJB Services (PJBS), a subsidiary of PJB. Asahan-1 is a run-of-river scheme developed to utilize the hydraulic head between the Regulating Dam and Siguragura Dam of the pre-existing Asahan-2 project, a three dam cascade developed between 1975-1982 to support the PT Inalum smelter, located on the North Sumatra coastline near Medan. The Asahan-2 scheme, which is not part of this project, comprises a 39 m Regulating Dam, a 47 m, 286 MW Siguragura Dam and HPP, and a 73 m, 317 MW Tangga Dam and HPP. The scheme relies on releases from Lake Toba, the largest volcanic lake in the world, as the Asahan River is the primary drainage of this lake to the Straits of Malacca. The Asahan-1 HPP comprises of a 6.5 km tunnel, 70 m surge shaft, 275 m penstock, powerhouse with two 90 MW Francis turbines, accommodation camp and switchyard (the latter handed over to PLN).

ACCOUNTABILITY MECHANISM OF IFC

The Compliance Advisor Ombudsman (CAO) is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an IFC or MIGA- financed project. If you submit a complaint to the CAO, they may assist you in resolving a dispute with the company and/or investigate to assess whether the IFC is following its own policies and procedures for preventing harm to people or the environment. If you want to submit a complaint electronically, you can email the CAO at CAO@worldbankgroup.org. You can learn more about the CAO and how to file a complaint at <http://www.cao-ombudsman.org/>
