---

## Project Description

According to EBRD website, the project will be a provision of a sovereign-guaranteed loan of up to EUR 180 million to the Motorways of the Federation of Bosnia and Herzegovina to construct four new key sections of Corridor Vc with a total length of approximately 15.8 km. The loan is composed of two tranches as follows:

- Tranche 1 in the amount of up to EUR 120 million to finance the construction of three motorway sections.
- Tranche 2 in the amount of up to EUR 60 million to finance the construction of a motorway section from the Mostar South Interchange to Tunnel Kvanj, approximately 8.7 km in length

Further, this project will facilitate BiH's internal and regional integration by improving its key transport infrastructure. The Project will also promote inclusion through the introduction of apprenticeships and work-based learning programmes for young engineers/students to be employed during construction either as permanent employees or as interns.

## ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form, [http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en). You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
