| **Project Cost (USD)** | $ 0.41 million |

## Project Description

The objective of this technical cooperation (TC) is to support the mitigation of the risks associated with the implementation of road infrastructure and mobility projects financed by the Bank in Haiti. In particular, the TC will focus on support for: i) pre-investment studies, basic designs, demand studies, environmental and social impact, road safety and land use; ii) ensure the sustainability of investments through institutional strengthening and the development of asset management; iii) implement planning models and program management tools that respond to the characteristics of each intervention, making it extensible to the bidding, implementation, monitoring, and closure strategies of each project.

## Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
