## Project Description

The EBRD is considering providing a senior loan of up to US\$ 100 million to fund the development of a 240MW peaking power plant, 15 km east of Amman in Jordan (the "Project"). The Project is urgently required to ensure the quality and security of electricity supply in Jordan and to prepare the grid for future deployment of large quantities of intermittent renewable energy. The Project is being developed as the result of a competitive tender by the government of Jordan and will be implemented on a build, own, operate basis. All output will be sold to the National Electric Power Company.

## ACCOUNTABILITY MECHANISM OF EBRD

The Project Complaint Mechanism (PCM) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an European Bank for Reconstruction and Development (EBRD)-financed project. If you submit a complaint to the PCM, it may assess compliance with EBRD's own policies and procedures to prevent harm to the environment or communities or it may assist you in resolving the problem that led to the complaint through a dialogue with those implementing the project. Additionally, the PCM has the authority to recommend a project be suspended in the event that harm is imminent. You can contact the PCM at [pcm@ebrd.com](mailto:pcm@ebrd.com) or you can submit a complaint online using an online form, [http://www.ebrd.com/eform/pcm/complaint\\_form?language=en](http://www.ebrd.com/eform/pcm/complaint_form?language=en). You can learn more about the PCM and how to file a complaint at <http://www.ebrd.com/work-with-us/project-finance/project-complaint-mechanism.html>.
