## Project Description

According to the Bank's website, the objective of the project is to support the development of the GovTech innovation ecosystem in Cordoba through the promotion of innovative collaboration between Technology Based Enterprises, innovative SMEs, entrepreneurial support institutions and the public sector, which will allow generating solutions that improve services to citizens.

## Investment Description

- Inter-American Development Bank (IADB)

The description of investment type was not available at the time of the snapshot.

## Contact Information

*Project contacts not available at the time of disclosure.*

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
