Support for the Preparation of Low and High Enthalpy Geothermal Projects in LAC Region

Support for the Preparation of Low and High Enthalpy Geothermal Projects in LAC Region

Quick Facts

Financial Institutions	Inter-American Development Bank (IADB)
Status	Closed
Bank Risk Rating	B
Voting Date	2018-12-03
Borrower	IDB borrowing countries
Sectors	Climate and Environment, Energy, Technical Cooperation
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.45 million
Project Cost (USD)	$ 0.45 million

Project Description

According to the bank, the general objective of this TC is to enhance low and high enthalpy geothermal developments in the Latin-America and the Caribbean (LAC) region. The TC will encourage the dialog, catalyze the use of further funds such as bilateral, multilateral and climate funds for promoting the use of high and low geothermal energy and develop financial instruments for exploration and exploitation of geothermal power.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
