Project Description

According to the Bank's website, the general objective is to support the regional integration processes and initiatives that are implemented in Central America, focused on the areas in which the Bank has been generating support and technical advice. Specifically, the TC aims to specifically support five areas that are underway in the region: (i) Maintain technical support for the implementation of the Coordinated Border Management model in Nicaragua, Costa Rica, and Panama; (ii) Support the second phase of the PDCC implementation process; (iii) Support the Deep integration process of the Northern Triangle; (iii) Promote investment and export promotion initiatives; (iv) Promote the development and implementation of the regional trade facilitation strategy; (v) Support initiatives for complementarity with other regional blocs within the framework of the Mesoamerica initiative.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
