---

## Project Description

The objective of the proposed operation is to support the Government of Suriname in its efforts to achieve macroeconomic stability and lay the institutional and policy foundations for a more transparent, resilient and inclusive economic growth. The proposed operation will support reforms that strengthen public sector governance, as well as the business/investment climate and financial sector.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici.1752.html> (in English) or <http://www.iadb.org/es/mici/mici.1752.html> (Spanish).
