## Project Description

The development objective of the Scaling Solar Energy Project for Zambia is to increase solar electricity generation capacity and diversify electricity generation sources in Zambia. The proposed additional guarantee will support the addition of 34 Megawatt peak (MWp), equivalent to 28.2 Megawatt (MW AC). The AF will also involve a restructuring, including (a) renaming of the original project from West Lunga Scaling Solar Energy Project to Zambia Scaling Solar Energy Project aiming to accommodate additional financing project activities, (b) extending the closing date from October 15, 2018 to December 31, 2019, and (c) updating the results framework to reflect the scale up.
