

 Early Warning System

ADB-49450-032

Increasing Access to Renewable Energy Project (Additional Financing)
under PREIF

Quick Facts

Countries	Tuvalu
Specific Location	Funafuti
Financial Institutions	Asian Development Bank (ADB)
Status	Approved
Bank Risk Rating	B
Voting Date	2023-12-08
Borrower	Government of Tuvalu
Sectors	Agriculture and Forestry, Energy, Transport
Investment Type(s)	Grant
Investment Amount (USD)	\$ 7.80 million
Grant Amount (USD)	\$ 7.80 million

Project Description

As stated by the ADB, the project will build upon the ongoing Increasing Access to Renewable Energy Project with a view to increasing climate adaptation and resilience of energy infrastructure in Funafuti. The additional financing will finance (i) cost overruns for the original project; (ii) expansion in renewable energy capacity while addressing land-constraints through installation of climate-adapted floating solar photovoltaic, productive uses of energy and sustainable blue economy in Funafuti; and (iii) project management and implementation support and capacity building.

The proposed project will initiate and contribute to the transformation of the Tuvalu energy sector to one that is adapted to growing climate and natural hazards. It will do this by installing the innovative, climate-adapted and efficient floating PV (FPV) for power generation and for services and benefits beyond electricity to address the food-water-energy-climate-transport-environment nexus of challenges. FPV is an adaptive technology as it requires no dry land, it rises with rising sea levels, rides the waves and floats with the tides, and is, by design, protected from coastal erosion and from strong winds due to its flexible cables and mooring system. The project will also replace the battery energy storage systems in all outer islands for continued reliability and diesel fuel savings as well as achieve the near 100% renewable target for the entire country. To ensure holistic sustainability of the project and TEC, the project will also help resolve legacy issues in the operations, financial management, and tariff structure of TEC.

Early Warning System Project Analysis

The ADB categorized the risks of the project as follows:

Environment B

Involuntary Resettlement C

Indigenous Peoples C

Investment Description

- Asian Development Bank (ADB)

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
