## Project Description

The project is to provide a loan facility for an amount of up to US\$100 million to Bank of South Pacific Limited (“BSP” or the “Bank”) to facilitate the Bank’s mid-size corporates and SME private sector customers’ international trade finance transactions.

The project is expected to strengthen BSPs ability to support its clients in the SME and mid-sized corporate segments by providing access to foreign currency, especially in a time of limited availability, in order to continue trade transactions primarily in the sectors such as basic agro commodities, consumer goods and wholesale and retail trade.

## Investment Description

BSP is a major commercial banking and finance group across Pacific, offering various banking services from personal banking to SME and Corporate banking. It was established in 1957 in Port Moresby as a branch of the National Bank of Australasia Limited. In 1995 a consortium of Papua New Guinea (“PNG”) businesses acquired the bank creating the first and only PNG private sector owned bank. Bank South Pacific purchased the State Owned – PNG Banking Corporation (PNGBC – formerly CBA PNG) in 2002 creating the largest Bank in PNG.

The largest shareholder is Kumul Consolidated Holding Ltd, a state-owned corporation that acts as the government’s investment vehicle, holding 18.03% of ownership followed by Nambawan Super Ltd., a corporate trustee, with 12.30% ownership. IFC and IFC Capitalisation Fund LP hold altogether 9.74% of ownership in the Bank, with equal shareholding. Each of the remaining shareholders holds less than 10% shares ownership and most of them are local funds and companies, as well as individual shareholders who have subscribed to the listed shares of the Bank on PNG Stock Exchange.

BSP is listed in PNG Stock Exchange in 2003 and rated ‘B+’ long-term and ‘B’ short term ratings outlook by S&P.
