Project Description

The development objective of the National Safety Net Program (NSNP) for Results Project for Kenya is to support the Republic of Kenya to establish an effective national safety net program for poor and vulnerable households. The additional financing (AF) with restructuring builds on progress made in the original NSNP and continues financing results in three areas: (a) expanding cash transfer programs to promote more comprehensive and equitable coverage; (b) strengthening program systems to ensure good governance; and (c) harmonizing cash transfer programs to increase the coherence of the safety net sector. The AF will ensure the long-term sustainability of the program by enabling the government to take over financing of additional households, including the funding for 60,000 households under two cash transfer schemes currently being financed by the United Kingdom (U.K.) Department for International Development (DfID).

The Parent project is National Safety Net Program for Results (P131305)
