## Project Description

According to IADB website, the project aims to contribute to the improvement of the quality of the urban built environment. The specific objectives are to: (i) improve the habitability in urban settlements on State owned lands; and (ii) improve the physical quality and economic performance of urban public spaces; (iii) enhance housing conditions for low income households; and (iv) strengthen the capacity of supply side stakeholders to satisfy effective housing demand and urban development needs.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
