Project Description

The objective of this technical cooperation (TC) is to produce evidence to guide the design and implementation of Rural II-CERRADO project, a second phase of PSG BR-X1028. According to the bank, this assessment will ensure that the full project is implemented effectively and agriculture is developed, while natural resources are preserved and deforestation is reduced in the Cerrado biome, the second largest in Brazil. Thus, improving resource efficiency, increasing productivity and income in small and medium farms in the MATOPIBA region.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
