Project Description

According to the Bank's website, the objective of this project is to improve urban mobility and reduce greenhouse gas (GHG) emissions along MRT4 corridor.

The Program will support the construction of a high-capacity railway mass transit system intended to serve the eastern side of Metro Manila from the Epifanio de los Santos Avenue (EDSA)-Ortigas Ave. Junction to Taytay in Rizal Province (i.e., the MRT4 Line). The system will include an elevated viaduct of 12.7 km and 10 stations; and has a barrier-free design to allow inclusive access. The Phase 1 of the Program (the Project) will be jointly co-financed by the Asian Development Bank (ADB) and the Asian Infrastructure Investment Bank (AIIB) to provide a portion of the Program's total cost.

ACCOUNTABILITY MECHANISM OF AIIB

The AIIB has established the Accountability Mechanism for Project-Affected People (PPM). The PPM provides an opportunity for an independent and impartial review of submissions from Project-affected people who believe they have been or are likely to be adversely affected by AIIB's failure to implement the ESP in situations when their concerns cannot be addressed satisfactorily through Project level GRMs or AIIB Management processes. Two or more project-affected people can file a complaint. Under the current AIIB policy, when the bank co-finances a project with another development bank, it may apply the other bank's standards. You can refer to the Project Summary Information document to find out which standards apply. You can learn more about the PPM and how to file a complaint at: <https://www.aiib.org/en/about-aiib/who-we-are/project-affected-peoples-mechanism/how-we-assist-you/index.html>

The complaint submission form can be accessed in Arabic, Bahasa Indonesia, Bengali, Chinese, English, Tagalog, Hindi, Nepali, Russian, Turkish, or Urdu. The submission form can be found at: <https://www.aiib.org/en/about-aiib/who-we-are/project->
