## Project Description

According to bank documents, the project road consists of a 688 km section of road from Karagandy to Burylbaital, an essential link in the corridor between Almaty and Astana. The corridor will provide an all-weather divided highway connecting Kazakhstan to Western China and Russia. It will be constructed along the existing road alignment, and will accommodate a duplicated carriageway, i.e., the new road will improve the existing 2-lane single carriageway road to 4-lane dual carriageway road and consist of 4 x 3.75m lanes, 3.75m shoulders, and a 3 to 6m median strip. It will be designed for a traffic speed of 120 kilometres / hour (km/hr) and axle loads up to 13 tonnes. Bridges, overpasses, and pedestrian and animal passes will be included where required and informed by social impact assessments. The proposed development objective is to make safe and sustainable improvements to transport and freight connectivity between Almaty and Astana, and improve access to economic opportunities.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
