CASAN BRAZIL WATER AND SANITATION FL

## Quick Facts

<b>Countries</b>	Brazil
<b>Specific Location</b>	State of Santa Catarina & State of Paraná
<b>Financial Institutions</b>	European Investment Bank (EIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	U
<b>Borrower</b>	COMPANHIA CATARINENSE DE AGUAS E SANEAMENTO CASAN
<b>Sectors</b>	Water and Sanitation
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 517.00 million
<b>Project Cost (USD)</b>	\$ 1.00 million

## Project Description

### DESCRIPTION

Framework loan to modernise the water and sewage services of CASAN, a public water utility provider with concession areas in the states of Santa Catarina and Paraná.

### ENVIRONMENT

The Promoter will be required to implement and operate the investments in conformity with national laws, as well as the EIB's environmental and social standards.

The project intends to bring environmental benefits by pollution abatement in water bodies and mitigate climate change through the reduction in emissions due to wastewater treatment. Most of the individual components to be financed under the investment loan are expected to have limited environmental and social impacts.

However, some of the investments may fall under Annex II of the EIA Directive 2014/52/EU (amending the EIA Directive 2011/92/EU) if located in the EU, requiring the competent authorities to determine whether an environmental impact assessment (EIA) is required.

Where a formal EIA is required (or would be required, were the project located in the EU), a copy of the Environmental & Social Impact Study or the Non-Technical Summary (NTS) or equivalent document will be provided to the Bank, and published on its website. The Promoter will also be required to verify that none of the schemes submitted for financing by the Bank have a significant negative impact on any site of nature conservation importance.

The Promoter's capacity to ensure that the schemes are in compliance with the EIB's environmental and social standards and the principles of relevant EU Directives will be also verified at appraisal

The project is expected to contribute to climate action and environmental sustainability (CA&ES) objectives, in particular to climate mitigation, climate adaptation, sustainable use and protection of water and marine resources.

### OBJECTIVE

This project will improve access to water and sanitation services in CASAN's area of operation. The purpose it is to achieve the objectives under the "Sanitation legal Framework" (Marco Legal do Saneamento-2020), as well as the Sustainable Development Goals such as number 3, 6, 11, 13, 14 and 17. It is estimated that the loan will be used for the construction of new wastewater treatment plants (WWTPs), expansion of services to unconnected customers, ensure service provision due to population growth and new required infrastructure

### PROCUREMENT

The Bank will require the Promoter to ensure that implementation of the project will be done in accordance with the Bank's Guide to Procurement.

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>.

According to the EIB website, you can also request general information through this form: <https://www.eib.org/en/infocentre/contact-form.htm>.

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form>, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf).

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>.
