Project Description

According to bank documents, the project consists of the financing of a production plant for the commercial roll-out of innovative, cost-competitive large-scale, long-duration thermal energy storage units suitable for different market applications and segments.

The aim of the operation is to co-finance under the InnovFin Energy Demonstration Projects ("EDP") the design, construction and operation of a manufacturing plant to produce and commercialise innovative thermal storage systems across Europe, North America and Africa. The Company plans the rollout of efficient and flexible clean energy storage modules. Its final purpose is to allow the stabilisation of the renewable energy production by adding flexibility to existing plants, eliminating the need for polluting back up conventional plants and lowering electricity prices and emissions.

ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address complaints@eib.org, by completing the online complaint form available at the following address: http://www.eib.org/complaints/form, via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces
