Support for the creation of a technical and financial mechanism for the monitoring and restoration of coral reefs

Project Description

According to the IADB, the main objective of this TC is to develop a sustainable technical and financial mechanism for the restoration, and monitoring of coral reefs in DR. This mechanism will integrate awareness campaigns, technical analyses, financing strategy design, pilot testing, and effectiveness evaluations to ensure its efficiency, continuity, and scalability.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
