## Project Description

The general objective of this TC is to support the Government of the Dominican Republic in the consolidation of a sector framework that meets the criteria of sustainability and efficiency. To achieve this objective, the TC will support the preparation of proposals for adjustment to the sector's legislation and regulations, in coordination with the counterpart. In the current context of the health and economic crisis caused by COVID-19, the strengthening of the sectoral and institutional framework is of utmost importance by promoting rapid responses to the crisis. This TC is expected to generate empirical and practical evidence that contributes to the implementation of actions consistent with the objectives of the DR-L1058.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
