### ENVIRONMENTAL CATEGORIZATION

The transaction is classified category A under MIGA's Policy on Environmental and Social Sustainability. Click here to view the Environmental and Social Review Summary.

### DEVELOPMENT IMPACT

MIGA's support for the transaction is expected to yield positive development benefits by mobilizing capital from a foreign sponsor with extensive operational management expertise in the aquaculture sector, thereby helping increase revenues of an export-oriented business in a key sector of Ecuador's economy, supporting the continuation of employment in the sector, and signaling to foreign investors the viability of investing in certain sectors in the country. The transaction is aligned with Ecuador's Country Partnership Framework (CPF) FY19-23 (extended until FY25 by the Performance and Learning Review), particularly with result area 1, objective 2 of improving conditions for private sector development as it supports foreign private sector participation in an important industry for the country, which contributes largely to Ecuador's exports and employment. Furthermore, the Project is aligned with MIGA's Strategy and Business Outlook FY24-26, and complements IFC's involvement in the company.
