Support for the Barbados Resilient Infrastructure Assessment

IADB-BA-T1083

Quick Facts

Countries	Barbados
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Barbados
Sectors	Climate and Environment, Infrastructure, Law and Government, Technical Cooperation
Investment Type(s)	Advisory Services, Grant
Investment Amount (USD)	$ 0.25 million
Project Cost (USD)	$ 0.25 million

Project Description

The objective of this technical cooperation (TC) is to support the Government of Barbados (GoB) to develop a resilient infrastructure assessment. The design of this assessment will require to estimate the financial and technical needs to ensure the resiliency of the current critical infrastructure to threats already prevalent in the Caribbean region and to more severe threats on account of climate change.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
