Project Description

According to ADB website, the investment project will strengthen the Java-Bali power transmission grid by constructing 220 km of extra high voltage transmission lines with associated substations. The project forms part of the governments regional economic development master plan and its long-term power development plan. The project will benefit the population in Bali by meeting future demand growth in Bali Island, thus ensuring long-term power supply security to support sustained socio-economic growth and government plan to achieve 90% electrification by 2020.

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
