Support to the Regional Initiative Energy Integration System of the Southern Cone Countries (SIESUR)

Project Description

According to the Bank’s website, as Technical Secretariat of the SIESUR Iniciative, the IDB, trought this TC, will: i) Promote the regional energy dialogue and collaboration between the sectoral authorities and technicians in charge of energy integration in the various countries participating in the initiative, to boost and build relationships of trust among them; ii) Support the carrying out and implementation of the short and medium-term actions to achieve an intensification of the energy exchanges (electricity and natural gas) between the SIESUR countries, through the strengthening of regulations and rules of technical operation of the exchanges, to optimize existing infrastructures and promote their expansion, or/and the development of new ones, in the event that the SIESUR's countries deem it convenient and opportune.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
