Project Description

As stated by the ADB, the project will have two depots per the concession signed by the Borrower with Capital Region Urban Transport (CRUT), Odisha's State Transport Undertakings (STU) partner: Pokhariput in Bhubaneswar and Naraj in Cuttack. Pokhariput depot is an existing bus depot that will be demolished to give way to the construction of a new depot on the same land. Naraj is vacant land owned by the transport authority where a new bus depot will be constructed. The bus Operator License with the STU partner includes the parking space license agreement which provides the operator the right to use and the right of way to the bus parking space. While the agreements have been signed, the government is yet to allocate the depots to the project, thus, the site-level due diligence is yet to commence.

The borrower will supply, operate and maintain 450 electric buses and charging infrastructure in the State of Haryana and 200 electric buses and charging infrastructure in the State of Odisha for the tenure of the concession.

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
