## Project Description

### Project Description

This summary covers a US-dollar denominated loan accompanied by a USD-ZAR cross-currency swap by Standard Chartered Bank of the United Kingdom (SCB-UK) and other financial institutions to be identified to Land and Agricultural Development Bank (Land Bank) in South Africa. SCB-UK has applied for a MIGA guarantee of up to \$450 million, including principal and interest, for a period of up to 11 years against the risk of non-honoring of financial obligations by a state-owned enterprise (NHSOE). The MIGA guarantee on the accompanying swap transaction is for an amount up to US\$150 million.

Land Bank is a development bank wholly-owned by the Government of the Republic of South Africa. The bank provides various financial products, notably medium-term loans to South Africa farmers; approximately 85 percent and 15 percent of the bank's loan book consists of agribusinesses that provide inputs/services to farmers and medium-to-large scale commercial farmers, respectively. Land Bank also administers public interest programs, such as drought relief schemes and flood assistance programs on behalf of the government.

Under this proposed project, SCB-UK and other potential lenders will extend a loan facility denominated in US dollars to Land Bank for asset liability management purposes, as well as on-lending in accordance with its mandate. The accompanying USD-ZAR swap arrangement would enable Land Bank to repay the SCB-UK's loan without facing a currency mismatch.
