---

## Project Description

This project provides technical assistance to support the Local Government Engineering Department to develop clear plans to increase governance transparency and accountability in its operations, including short term to long term plans that require further funding. Additionally, the project assistance seeks to help the Department with identifying governance and trustee risks.

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
