## Project Description

This TC aims to support Paraguayan youth to develop 21st century skills, such as creativity, computational thinking and problem-solving skills, through coding education. The specific objectives of the TC are to: (i) support the implementation of the pilot coding education in selected primary schools; (ii) build capacity of teachers to deliver coding classes; (iii) analyze the effects of coding education on student learning and development of 21st century skills; and (iv) support the development of a public policy on ICT education by contributing to create a shared vision among key stakeholders, and disseminate the results of the project.

- Inter-American Development Bank (IADB)

## Contact Information

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
