## Project Description

The objective of this Technical Cooperation (TC) is to support the Government of Trinidad and Tobago to achieve better mobility and reduce congestion. This TC seeks to add value to existent transport infrastructure and services by promoting technology adoption and digital solutions. To that end, the TC will provide institutional strengthening and capacity building to the state-owned Public Transport Service Corporation (PTSC) and the needs assesment for the implementation of a Metropolitan Transit Agency for Trinidad; regulations to implement congestion charging and reduce pollution in downtown Trinidad, develop a comprehensive parking policy, and digital parking charging, and revamp HOV lanes to incorporate technology enforcement and tolling; and deploying of specific solutions for Priority Vehicle Routes (PVR).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
