Project Description

The bank informs that the objective of the proposed operation is to strengthen the capacity of the countries in the implementation of Managing for Development Results (MfDR)-oriented reforms by strengthening CoPLAC-GpRD and promoting its long-term sustainability. The TC will support the consolidation of networks and nuclei during 2018 and 2019 and will expand participation and number of members. Some of the main areas where the CoPLAC-GpRD (Comunidade de Profesionales y Experto en Latinoamerica y el Caribe en Gestión para Resultados en el Desarrollo) will contribute to disseminate knowledge correspond to budgeting, planning, public investment, public financial management, monitoring and evaluation, as well as project management. The demand in the countries for MfDR is clearly demonstrated by: the growth in the number of members of the CoPLAC, the number of entries to the website of the CoPLAC, and the number of participants in the activities of the CoPLAC

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
