<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 35.00 million

---

### **Project Description**

According to the Bank's website, this project aims to ensure adequate and modern access to sustainable electricity to enhance the living conditions of the rural population. This will entail: (i) advancing the implementation of energy reform through support to the Energy Authority of Suriname; (ii) increasing the reliability of the power system and promoting the diversification of the energy matrix through financing related pre-investment activities; and (iii) expanding electricity coverage through a combination of grid extension and off-grid systems.

**Investment Description**

- Inter-American Development Bank (IADB)

---

**Contact Information**

*No contact information available at time of writing.*

**ACCOUNTABILITY MECHANISM OF IADB**

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
