## Project Description

The project consists of upgrading the ANA (Automated Nursing Assistant) solution into a SaaS (Software as a Service) strengthening it with components that will help private and public organizations empower untrained caregivers and families to improve health while reducing costs and burden and accelerating the scaling of the service. The project contemplates providing the platform to partners (Homecare companies and medical groups) that will use it to monitor, guide, and train at least 1,000 vulnerable elders with chronic conditions and their caregivers in low-income communities both in urban and suburban areas throughout Mexico.

## Investment Description

- Inter-American Development Bank (IADB)

The country's counterpart amount to USD 674,000.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
