## Project Description

The objective of this technical cooperation (TC), is to support Brazilian national and sub-national development banks, financial institutions, and public entities to mobilize private investment for low-carbon infrastructure projects in the energy, transport, waste, water and sanitation sectors in Brazil. The TC aims to achieve its objective by i) piloting innovative green financial instruments and structuring climate-related de-risking mechanisms; and ii) developing the Brazilian capital market and enhancing legal, regulatory, and institutional systems.

### ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
