### **Project Description**

The Government of the Socialist Republic of Viet Nam has requested a project preparatory technical assistance (PPTA) from the Asian Development Bank (ADB) to conduct due diligence and prepare an investment project Distribution Grid Development Sector Project for Viet Nam Power Corporations.

This is to support the government in the implementation of its Seventh Power Development Plan 2011-2020 (PDP VII) in providing adequate and reliable power supply. The ensuing project (the project) will assist part of the government's investment program in strengthening the power distribution system, managed by the distribution power corporations (PC) of state-owned Vietnam Electricity (EVN).

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
