### **Project Description**

According to the Bank's website, the general objective of the project is to reduce the number of people potentially affected by floods (including river overflows), landslides, tsunamis and volcanic eruptions in Ecuador, through the universal provision of accurate early warning information and the implementation of activities to strengthen community resilience capacity. The specific objectives of the project are: (i) strengthening the capacity to observe threats and risk analysis associated with SAT; and (ii) improvement in the communication of the alert to the communities and strengthening of their response capacity.

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
