Malawi Governance to Enable Service Delivery Project

## Quick Facts

<b>Countries</b>	Malawi
<b>Financial Institutions</b>	World Bank (WB)
<b>Status</b>	Approved
<b>Bank Risk Rating</b>	B
<b>Voting Date</b>	2018-11-14
<b>Borrower</b>	Government of Malawi
<b>Sectors</b>	Law and Government
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 50.00 million
<b>Project Cost (USD)</b>	\$ 50.00 million

## Project Description

The stated objective of the project is to improve access to and quality of administrative services delivery and enhance public financial management systems and processes.

The preliminary project structure centers on three mutually reinforcing pillars to support the modernization of the Malawian public administration:

1. The first pillar focuses on administrative service delivery through support and operationalization of additional Mlambe Centers and related reforms. The first pillar comprises three core components to support a new public service delivery model.
2. The second pillar focuses on modernizing public financial management at the central and local levels. The pillars are joined by the common objective of improving service delivery: the first pillar through access and quality of services, the second pillar through efficiency and accountability of financial management.
3. The third pillar supports project implementation and will include a flexible just in time allocation to provide technical and advisory assistance for emerging needs.

The GoM has launched two pilot CSCs in Lilongwe and Mangochi in the summer of 2017. The GoM encountered a number of challenges during the process of establishing the pilots. These include an action plan for development and rollout; a framework for institutional coordination; and technical and operational design including staffing, IT, payment systems, and plans for monitoring and evaluation. This pillar will support the GoM to overcome these challenges and provide necessary financing to ensure consistency across the CSCs and the citizen experience. Component 1 supports the refurbishment and operationalization of CSCs at selected post offices. Component 2 supports BPR and change management. Component 3 supports strengthening of performance monitoring and collecting and incorporating citizen feedback.

### ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org). You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
